

Before signing the new T&C's which have been updated to cover issues around using the BP mobile app, please read the following:

- By signing the new Terms & Conditions you agree to allow all present and future acquired cards under your account to be available to use the BP mobile app if requested by the card holder.
- Registering to use the BP mobile app effectively creates a second copy of the card on the phone of the person that registers to use the BP mobile app.
- When the card is cancelled the registration for the BP mobile app will automatically cancel.
- If the card is for a person other than the account holder ie an employee, the registration of the BP mobile app must be cancelled in accordance with the Terms & Conditions (clause 8.1) if the card is returned or assigned to another person. If the card is assigned to another person and the BP mobile app is not cancelled purchases can still be made by the person who registered to use the BP mobile app.
- If you do not wish for some of the cards under your account to be available to use the BP mobile app please send an email to fuelcard@rdp.co.nz including a list of current cards to be disabled.

In addition to signing the terms and conditions attached I confirm I have read and understood the information on this page.
